*Students interested in engineering may acquire their pre-engineering training at Loyola and then transfer to a school of engineering to complete their studies. If the student successfully completes the courses listed on this page (i.e., 2.0 GPA in major courses and 3.3 GPA cumulative)and then transfers to a school of engineering and successfully completes the engineering degree there, Loyola will, upon official certification of student's engineering degree, award the B.S.Physics degree.				
*Loyola has a specific 3-2 program with the University of New Orleans				
*For information about this program, see the Chair of the Department of Physics.
